Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 49-65 and 67-73 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. It is unclear as to where in the specification is disclosed that the passage connecting the first and second and stages 'is configured to inhibit settling out of particulate matter from the air stream'(claim 49), 'is substantially free of dead spaces'(claim 58) and the further limitations of the passage as set forth in the dependent claims. It appears that the only disclosure of the passage is on page 14, lines 8-9, which simply discloses the presence of a conduit.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 49-73 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Davis. Davis discloses a dirty air inlet (col. 3, lines 49-50).

Art Unit: 1744

Davis discloses a source of suction (fig. 2, #83).

Davis discloses a first cyclonic cleaning stage having an inlet and outlet (fig. 2, #11,30).

Davis discloses a second cyclonic cleaning stage in series with the first cyclonic cleaning stage having a plurality of second stage cyclones (fig., 2, #12,52-57).

Davis discloses a passage connecting the first and second cyclonic cleaning stages, the passage configured to inhibit settling out of particulate matter (fig. 2, #37).

With respect to claims 50-73, please refer to fig. 2, #37.

Response to Arguments

5. Applicant failed to provide any arguments with respect to claims 31-33, 39-43 and 45-48.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Pootjes discloses a multistage cyclonic separating system.

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period

• Application/Control Number: 09/679,353

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
